Highlights

100% ceramic grinders

This espresso machine is equipped 100% ceramic grinders. Saeco uses ceramic grinders because of their consistent grind without overheating the coffee bean for an impeccable espresso. Ceramic also ensures long-lasting performance and a totally silent operation.

Patented dual chamber carafe

Enjoy your milk specialties fully automated with the new patented milk carafe with dual chamber technology. Simply pour milk into the carafe, plug it into the machine and select your coffee drink. With the dual chamber technology you will always enjoy professional coffee drinks with dense, long-lasting milk froth at the ideal temperature from a constant splash-free flow of milk.

Fully automatic rinsing

Easy maintenance, long-lasting performance and always the best result in the cup are ensured thanks to our fully automated rinsing and de-scaling program.

Dishwasher-safe parts

For your convenience, you can put the Saeco's drip tray and milk frother or milk carafe in the dishwasher. This will save time and ensure a hygienic cleaning.

16 coffee specialties

From a creamy cappuccino to a regular coffee, savor a world of 16 different coffee drinks due

to Saeco's VariPresso brewing group chamber. It will automatically adjust the pressure, adapting to suit many types of coffee extraction for a great coffee variety at home.

Thermo-speed technology boiler

Enjoy perfectly hot, professional-quality coffee without the wait, thanks to our new, powerful boiler with the Saeco Thermo-speed technology. The Thermo-speed boiler will flash-heat the coffee circuit when the machine is turned on. This extremely fast heating prevents heat loss ensuring perfect, hot coffee from the very first cup.
